To Whom It May Concern,

I am very pleased to recommend Dr. Thomas Sharp and his dinosaur program to any school or public institution. Dr. Sharp does an excellent job of presenting the program, and the exhibit is as good as any I have seen at a museum.

The students were kept involved in the presentation and were always listening to what Dr. Sharp had to say. Any student would benefit from this presentation, and I highly recommend it.

Sincerely Yours,

Mrs. Ada white
